**NOTES FOR LONDON MEETING**

**SUBJECT: Albanian Operations**

1. It is premature to engage in further discussions in London on the subject of FIEND/VALUABLE pending additional work on the question of policy between OFC and the Department of State. Now that the British Foreign Office paper on Albania is undergoing study in Washington, the American views on this subject should be ready for presentation to the British before very long and until this American policy paper is finished, the only thing to do is to keep FIEND/VALUABLE going according to the lines agreed upon by [ ] and [ ] during their last meeting in London during the period 16 - 20 July.

2. With respect to the question of broadening the Albanian Committee, this matter will await further action pending the completion of a study to be conducted in the field by a working group representing the Albanian National Committee and in Washington and London by OFC and SIS personnel respectively, with a view to securing the best possible evaluation of the tangible assets which the broadening of the Committee would provide for the furtherance of the objectives of FIEND/VALUABLE.
